Recommended for you

Ein neues Format verwandelt das Salzamt zum YouTube Kino.

Menschen aus der Kunst- und Kulturszene ersetzen den YouTube Algorithmus und wählen im „Stille Post Verfahren“ jeweils einen Beitrag zum Videoprogramm.

While algorithms are good at processing data they are bad at thinking in abstract. Approximately 400 hours of video are uploaded to YouTube every minute and around 1 billion hours of YouTube are watched by users worldwide per day. YouTube's algorithm tracks viewers' perceived satisfaction to create an addictive, personalized stream of recommendations.

Atelierhaus Salzamts new screening format „Recommended for you“ takes this system of suggestions back into human hands.
